Resolution 2012-01, Sidewalk Repair. Chair Kilgore asked about the catch basin for the Conley property. Chair Kilgore asked Mr. Sobczak to take care of any other properties that are due to the catch basins. This should be the Village's responsibilities and not the owners.

Mr. Sobczak discussed the El Patron and Dollar General sidewalk.

Mr. Sobczak submitted quotes for streets needing asphalt repairs. The quotes are attached to the minutes. There was a discussion about the work that needs to be done.

Mr. Sobczak was able to get a sealer for a two week window in April. The demand is high. There is about 350 yards that needs to be done. There was a discussion to get as much done as possible and consider a contractor to finish the work.

There was a discussion about the concrete budget.

Mr. Sobczak reported he would like to get about 1/2 ADA projects done this year. Keep in mind, some projects are bigger than others. It was discussed to work on the North side of town and work towards town. Mr. Sobczak is working on getting the resin plastic installed for the downtown crosswalks. As long as the Village is proactive the Village will have as long as it takes to complete the projects.

Old Business (con't):

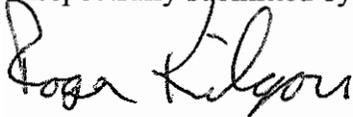

Kathy Rhoads reviewed the maintenance logs for the current equipment and reported they are being properly kept. The issue has been resolved.

There was a discussion about planning long term project planning. The Committee has been asked to provide a list of priority projects. This will help the Finance Committee with budgets. Mr. Sobczak was able to provide an infrastructure for this year.

It was discussed that \$12,000 was spent on salt this year due to the mild winter. Mr. Sobczak would like to go ahead and use the remaining budgeted money to replenish the stock and be ready for the next winter. There were some cost savings due to the mild winter where little overtime and minor repairs to equipment were needed.
